Subject: [House-adopted Amendments to the Long Bill](#)

This memorandum summarizes House action on the FY 2025-26 Long Bill (the changes from the reengrossed bill to the rerevised bill).

House Appropriations Committee

The House Appropriations Committee adopted amendment **J.084**, which **reversed all of the non-technical amendments adopted during second reading in the Senate**. Thus, the House Appropriations Committee Report restored the Long Bill to the introduced version.

House Second Reading

The House adopted **10** amendments on second reading. In total, those amendments increased appropriations by \$20.4 million total funds, including **\$8.0 million General Fund**.

- Five of those amendments restored Senate-adopted amendments – and account for nearly all of the change in appropriations and nearly all of the change in General Fund.
- The House adopted four “new” amendments, resulting in a net increase of \$323,077 total funds but a decrease of \$76,923 General Fund.
